

Antenna for ETC
(Front Window Type)

Antenna for ETC
(Dashboard Type)

Features

- Feasible to collect automatically from cruising cars by ETC (Electric Toll Collection), the wireless data communication system to minimize traffic jam.
- Broadband-ready with supporting DSRC.
- Feasible to 2dBi Gain with including Cable loss.
- Individual, compact and low profile in-vehicle antenna.
 - (1) Waterproofing type (For external installation).
 - (2) None-waterproofing type (For internal installation).

Specifications

| | |
|----------------|----------------|
| Frequency | 5775 ~ 5845MHz |
| Polarization | RHCP |
| Gain *1 | 2dBi Min. |
| Axial Ratio *2 | 4dB Max. |
| Impedance | 50Ω |
| VSWR | 2.0 : 1 Max. |

*1 With 2.5D Cable 2.5m

*2 at zenith
