

On-vehicle TV Antenna (Digital Terrestrial Wave)

Laminated Antenna For Digital Terrestrial Wave

Laminated Antenna for Digital Terrestrial Wave

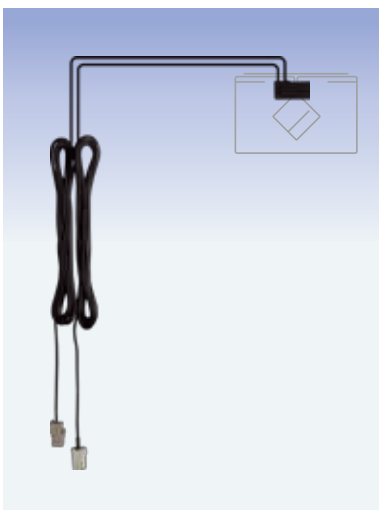

Features

- Laminated antenna for front window.
- Small sized/high quality antenna designed to enable wide visibility for driver and passenger.
- Improve installation time by groundless AMP.

Specification

Item	Specification
Frequency	470~770MHz
Polarization	Horizontal
Gain	-5dBd Min.
Output Impidance	50Ω
Supply Voltage	7.5~8.5V

Diversity Antenna For Digital Terrestrial Wave

Laminated Antenna for Digital Terrestrial Wave / GPS

Features

- Laminated antenna for front window.
- Small sized/high quality antenna designed to enable wide visibility for driver and passenger.
- Terrestrial wave and GPS merge into one Laminated antenna element.

Specification

Item	Media	Specification	
		DTV	GPS
Frequency		470~770MHz	1575.42 ± 1.023MHz
Polarization		Horizontal	RHCP
Gain		-5dBd Min.	27dBd Typ.
Output Impidance		50Ω	50Ω
Supply Voltage		7.5~8.5V	4.0~5.0V
