**Yokowo to participate with the OnGo Alliance in MWC24 show in Las Vegas**

Yokowo Manufacturing of America (YMA) is pleased to announce that it will exhibit its IoT Antenna Products at the MWC24 (Mobile World Congress) Show in Las Vegas, Nevada on October 8-10, 2024. Yokowo will participate as one of ten IoT/5G companies in the OnGo Alliance booth at MWC.

MWC Las Vegas 2024 is considered to be the premier Enterprise 5G event in North America, dedicated to the mobile communications industry and showcasing the power and potential of 5G from private networks, to cloud and edge computing.

The OnGo Alliance is dedicated to supporting the common interests of its members, implementers and operators for the development, commercialization, and adoption of LTE and 5G NR solutions for the US 3.5 GHz Citizens Broadband Radio Service and to drive technology developments necessary to fulfill this mission.

Yokowo will introduce its newest 5G products including its transparent “invisible” 5G antenna for glass mounted applications. They will feature other 4G/5G MIMO antennas suitable for high-performance data communication in applications ranging from vending machine inventory management and parking lot payment devices, to construction machinery remote monitoring. Yokowo will also display private 5G Antennas for various applications such as factory AVGs (Automated Guided Vehicles) and remote-controlled shuttle buses as well as High-Precision GNSS Antennas, necessary for autonomous

driving and precision locating & control of construction equipment, agricultural machinery, and drones.

With demand for IoT applications and connectivity devices steadily growing, Yokowo established its IoT business unit in 2023 to develop products to meet this demand based on its longstanding design and testing expertise in the automotive antenna field. Through exhibiting at MWC24, Yokowo hopes to introduce and broaden interest in its IoT antenna products and technical expertise through information exchanges on specific product and application needs.
