Current Forecast		25 yen	50 yen
Results for the first half of fiscal year ending March 31, 2026	25 yen		
Results for the previous fiscal year ended March 31, 2025	24 yen	24 yen	48 yen

③ Reason

The interim dividend for the fiscal year under review is ¥25 per share, an increase of ¥1 per share from the latest dividend forecast, in light of performance for the first half exceeding the forecast figures due to growth in the CTC and FC/MD segments.

In addition, the year-end dividend forecast for the fiscal year under review has been revised to ¥25 per share (an increase of ¥1 per share from the latest dividend forecast), reflecting the anticipated expansion in demand for semiconductor testing for generative AI in the CTC segment, as well as steady progress in development and investment projects aimed at future business growth. As a result, the annual dividend for the fiscal year under review is expected to be ¥50 per share, with a consolidated payout ratio of 38.9% and a DOE of 2.2%.

Note: The forecast figures in this document are based on information available at the time of publication. Actual financial results may differ from the forecast figures due to various factors.
